

NEEM REPEL

Use throughout the growing cycle as a preventative measure against pests and disease.

What is Neem Repel?

Neem Repel is an all new natural product for the Hydroponic industry and growers in general, a safe, non toxic means to protect your crop from a variety of insect pests and disease.

Neem Repel is Ideal for indoor/outdoor use on ornamental flowering plants, trees, shrubs and foliage. It assists the control of Black Spot on Roses, Rust, Scab, Powdery Mildew Spider Mite, Aphids, Whitefly, Leaf Hoppers, Leaf Spot, Blight, Downy Mildew and Botrytis.

Neem Repel works by coating the plant and preventing fungal attack of plant tissue and contact activity to mite pressure on the plant. At last a true Neem based insect repellent that is fully compliant to agricultural legislation.

Neem Repel is....

- Non Toxic
- Safe to Use
- No harvest interval

Product Details

NEEM REPEL

Protects against unwanted pests!

- **Neem Repel** is a natural product
- **Non Toxic**
- **Easy to apply with the PestOff Pistol**
- **Safe to use**
- **No harvest interval**
- **Highly effective as a preventative measure**

SUITABLE FOR ORGANIC GROWING •

How do I use it?

- **Neem Repel** is safe to use in all situations, including garden, home, greenhouse and conservatory.
- Spray the crop with the **PESTOFF Pistol** ensuring that both bottom and tops of leaves and stems are wetted thoroughly. Also spray all growing points of the plant.
- Add to warm water at a rate of 20ml per litre. Shake well then empty the **Neem Repel** concentrate into a suitable sprayer or **PESTOFF Pistol**. Add the correct amount of water and shake well again until thoroughly mixed. Thoroughly clean **PESTOFF Pistol** after use. Spray onto plants, ensuring all surfaces are wetted.

Rinse equipment. Spray in 7-14 day intervals depending on the severity of the problem. Best used in early morning and just after the lights have gone out. Use mixed solution within 6 hours.

Caution: not for use on cuttings or stressed/wilted plants.

- The concentrate has a very long shelf life. When diluted use within 6 hours. Protect **Neem Repel** from extremes of hot and cold.
- **Neem Repel** has no effect on beneficial insects

Don't forget the PESTOFF Pistol!

The perfect fine mist sprayer for the perfect **PESTOFF** application.
